This comparison contains highlights of your health care plan option(s). If there is a discrepancy between the wording in this comparison and your insurance certificate or plan description, the insurance certificate or plan description will govern.

[1] For non-preventive drugs, you pay the full price of the drug until you meet the deductible, at which point you pay the applicable copay or coinsurance.
[2] If performed as part of a physician office visit and billed by the physician, expenses are covered subject to the applicable physician's office visit member cost sharing.
[3] If a brand drug is purchased when a generic is available, you pay the copayment plus the difference in cost between the brand and generic medication. For the HDHP plan, the Deductible applies before the above copay schedule (except for preventive medication).
[4]Administered by OptumRx for the Aetna HDHP and Aetna PPO plans.
[5] Specialty prescriptions are available through Optum Specialty only (not at retail).
[6]90-day prescriptions available from Walgreens-owned retail pharmacies (including Duane Reade) for the national Aetna plans.
